

You insure your Life— Why not insure your Health by using Cottolene?

It isn't the quantity of food you eat, but that portion of it that digests that brings health and strength.

Lard-soaked food never has been, never can be digestible and nourishing, because of the hog fat it contains.

Cottolene is far more healthful than lard because Cottolene is a vegetable product, makes food rich without being greasy, and can easily be digested by the stomach of a child.

They say the way to a man's heart is through his stomach. People who have used and are using Cottolene for all shortening and frying purposes say that the way to health is through the use of Cottolene.

Cottolene shortens your food; lengthens your life.

CHAMBER TAKES UP IRRIGATION PLAN

DOUGLAS, Nov. 17.—(Special)—The directors of the chamber of commerce at their regular meeting yesterday afternoon took up an irrigation proposition which has resulted from correspondence on the subject conducted by P. A. Packard. He wrote several letters on the subject and the last reply he had received, and which contains definite details of a proposition was turned over to the secretary of the chamber of commerce and duly brought up for consideration yesterday.

The project which is now under consideration is for the furnishing of power to the ranchers of the valley and would require at least 10,000 acres for irrigation from the start. The offer seems to be a good one and worthy of the attention which it will receive. It is made by the Western Construction company of Wichita, which has done something similar in the vicinity of Portland.

Summarized, the offer made by the Western Construction company is to erect a power plant here and to furnish power for the running of pumps for irrigation for at least 10,000 acres at a cost of \$4.50 per acre per year for ten years, that is for a total of \$45 for ten years, at the end of which time the plant becomes the property of the power users. Thus the expense of the rancher would be the sinking of well, installation of pumps and \$4.50 for each acre irrigated each year, which for 100 acres would be \$450 per year. Again, taking the 100 acre basis the rancher would pay \$4500 for the furnishing to him of the power and for the purchase by himself and his co-partners in the project of the plant which reverts to them after the ten annual payments.

The main requirements of the company are that there shall be 10,000 acres included in the project, and that first there shall be drilled and tested by the community six test wells, which they believe would cost some \$4000 to \$5000.

A committee of one was appointed by the directors to act with the business men's association in the matter of city water rates. James H. East, who is on the business men's committee, was the appointee of the chamber.

MABEL WOULD NOT BECOME THE FOURTH

BERLIN, Nov. 16.—The fact that the ex-shah of Persia interrupted his journey to Paris to stop at Vienna caused a political sensation. The Vienna papers published long explanations of all the political reasons that might have induced the fallen potentate to tarry at Vienna, but the fact is the incident has no political significance whatever.

The ex-shah, who travels with his three favorite wives, went to Vienna to get a fourth wife. A few months ago an Anglo-American dancing quartette, "The Violet Girls," performed at a vaudeville show in Teheran, and the shah ordered the four dancers to give a private performance at the palace. There he promptly fell in love with the youngest, Mabel Flynn, seventeen years old. He gave her valuable presents and asked her to become his fourth wife.

At first Mabel was inclined to do

SAYS STATEHOOD IS IN GRAVE DANGER

DOUGLAS, Nov. 17.—(Special)—That there is danger of the constitutional convention, now in session at Phoenix, destroying all chances of statehood as a result of its session, is the impression Hon. E. A. Packard received after a week's visit in Phoenix during the fair, where he met many of the prominent citizens of the territory who have been watching the constitutional work since it began on October 10. Mr. Packard did not devote much of his time to the convention, but the extreme radical propositions for the constitution were freely discussed at Phoenix by the hundreds of visitors and, with very few exceptions, all agreed that the recall provision, as tentatively decided by the majority would make the approval of the constitution impossible by either the president or congress. The recall of the judiciary has few defenders outside of the convention, according to the information received by Packard on his trip, which included the visit to Phoenix and back to Douglas through Gila and Graham counties.

Mr. Packard stated this morning that he found many men, democrats and republicans, who thought it would be wise to vote the constitution down at home rather than have it come to Washington with a recall provision for the judges, which would certainly mean the death of statehood under the present enabling act. "There is a deep feeling of regret among the people of the territory," said Mr. Packard, "because of what they regard as serious danger of losing statehood by extreme radical action which is uncalled for at this time. If the people of Arizona want the recall and other such radical measures they will have the opportunity to have them after Arizona becomes a state, but now nothing should go into the constitution which might prevent its approval in Washington."

Ex-Mayor Adamson, who returned with Mr. Packard yesterday evening, agrees that the people he saw in Phoenix were much alarmed about our chances for statehood, because of probable too radical action by the convention.

This sentiment is very prevalent in Douglas, as well as throughout the territory. The international finds that among the business men there is little support for the recall in any form, and practically none for a recall that would reach the judiciary.

DOUBLE MURDERER WILL HANG

MONTREAL, Nov. 17.—All arrangements have been completed for the Montreal jail for the execution tomorrow of Timothy Candy, the Englishman who shot and killed Constables Fortin and O'Connell on May 6 last. The double murder was committed while the constables were attempting to arrest Candy for the theft of some boots and shoes he had stolen from a factory where he was employed as a watchman. The condemned man, who had not been in the country a great while when the crime was committed, has a wife and children in England.

so. Later she feared she might be shut up in a harem, and the quarter left Teheran without taking leave of the ex-shah. Since then the monarch in exile has been inconsolable, and has been trying in every way to get possession of the girl. At last the Persian embassy at Vienna informed him that the "Violet Girls" were dancing at the Casino de Paris—a high-class cafe d'ansant of Vienna. Therefore the interrupted journey and the "stop-over" at Vienna. The ex-shah tried again to induce the girl to become his fourth wife, but failed, as Mabel refused the honor, unless he consented to live with her in Europe.

JUAREZ IS QUIET, SAYS THE GOVERNOR

EL PASO, Nov. 17.—President Diaz is apparently doing all he can to prevent any further anti-American riots in Mexico.

Assurance from President Taft of friendly sympathy for Mexico, and that all efforts will be made to punish those guilty of the burning of Antonio Rodriguez, Monday found their way to Mayor Francisco Portillo of Ciudad Juarez through a mass of diplomatic channels. The telegram itself, which probably was received by all the politicians in Mexico, in an effort to appease any excitement among the Mexicans, is translated as follows:

"The department of state announces to the governor as follows: 'President Taft manifested to the president of the republic yesterday by way of the department of state and the ambassador at Washington that the government of the United States has the best confidence in the wishes of the president of Mexico to calm any disturbances between both countries and avoid all violence or punishable insult to American citizens.' President Taft adding that he will put all efforts to punish any guilty persons for the crime committed against Antonio Rodriguez in Texas. I communicate this for your knowledge and satisfaction by special resolution of the president, Miguel S. Macedo, and I inform you of this that you will be confident in the public sentiment with reference to the pretended cooling of relations between Mexico and the United States, which is absolutely false."

Signed, "GUILLERMO PORRAS," "Secretary of State."

To this message, Mayor Portillo answered the secretary of state as follows: "With satisfaction I assure you that the inhabitants of this district have remained quiet, thereby showing their culture and confidence in our government, which shall satisfactorily arrange this matter."

Circulars Sent to Schools. MEXICO CITY, Mex., Nov. 16.—Circular letters condemning in strong terms the recent demonstration against Americans were read in all public schools and other educational institutions under government control in Mexico City Monday. The letters were signed by the minister of public instruction.

Seven students who have been in prison since the recent troubles were released after being examined. Twenty of their comrades were less fortunate, and after being given a preliminary hearing were sent back to confinement to await trial.

MORE NATURALIZED

(Tombstone Prospector)

Today was naturalization day in the district court and it was clearly proven that you can't get that highly valued document of citizenship in this great and glorious country with out a fair knowledge of our fundamental laws, and Uncle Sam is guard the door closely. Special Examiner Jones conducted the examination on behalf of the government and the following 16 applicants carried away that much prized paper, although several failed in attaining citizenship: George Zeide Mark Dixon Ignatius Zagors Marko Vuckovich Chris Rupich Martin Delichman D. C. Sullivan Charles Raygol Ed Flach Ole Holstane Iver Moore Ben Anderson John Anderson Wm. Quirk John Boyle

December 12 is the next naturalization day.

New York fans are busy picking the Giants to win the National League pennant next season. It's easy to pick baseball winners during the winter months.

DOUGLAS NEWS

Back to Cananea. Fred Upton, a former employee in the hardware department of the Copper Queen store, who has been spending a few days in Douglas, returned today to his home in Cananea.

Bring in Cattle. A trainload of cattle from the Hohstadt ranch in Sonora was crossed yesterday for shipment to Tempe and to Kansas. Another train load will be shipped in the course of the next few days.

It is Mayor Ramsey. During the absence of Mayor Wright Alderman Frank Ramsey, who is the dean of the council, is acting mayor of Douglas.

Teaches Bisbee Players. John Adams was in Warren yesterday giving golf lessons at the Country club. It is the intention that he shall spend two or three days a week at the Warren district club when not engaged in Douglas.

Directors Meet. The board of directors of the Country club held their monthly meeting last night at the office of the chamber of commerce. Little beyond regular routine business was transacted.

C. & A. Wins. The C. & A. four took three points from the Giants last evening in the Y. M. C. A. bowling tournament, taking the second and third games and the high total, 177 was high game and 148 high average.

Goes to Nacozari. R. L. VanDusen came in last evening from El Paso and left today on a business trip to Nacozari. Mr. VanDusen has been suffering from throat trouble, and came to Douglas to consult with a physician.

Charge Mescal Smuggling. Epitacio Madrigal is awaiting a hearing before U. S. Commissioner Albert M. Sames on a charge of smuggling. He is charged with bringing a demijohn of mescal over without stopping at the custom house.

New Stamping Machine. Postmaster Cadwell is today installing in the local postoffice a modern machine for stamping outgoing and incoming letters. The machine will be operated by electric power and a motor for that purpose is being attached. This machine will be a great improvement, as heretofore all letters have been stamped with the date of their departure or arrival by hand.

Mr. and Mrs. L. R. Budrow are up from El Tigre.

W. A. Meyer arrived from Nacozari this morning.

Mr. and Mrs. Harry Harding are rejoiced in the birth of a son.
